Title Index

A

Alveolar bone loss and restorative dentistry in the primary molars Enrique Bimstein, Ran Zaidenberg, Aubrey W. Soskolne, No. 1, p. 51

Ameloblastic fibro-odontoma of the maxilla: case report
Erdener Ozer, Ugur Pabuccuoglu, Ufuk Gunbay, Sulen Sarioglu, Safiye Aktas, No. 4, p. 329

An alternative to distalizing a maxillar molar: case report Adriana Segura, Clemens A. Full, No. 2, p. 105

An unusual osteoma of the mandible Othman M. Yassin, Anwar B. Bataineh, Mowafak J. Mansour, No. 4, p. 337

A short term plaque study using lactitol as a non-sugar sweetener S. Tandon, C. Rao, K. Moorthy, S. Nayak, No. 2, p. 157

A sub-occlusal oblique transverse ridge: identification of a previously unreported tooth structure: the Rainey Ridge J. Tim Rainey, No. 1, p. 9

B

Bond strengths of composite resin and compomers in primary and permanent teeth Dolrudee Jumlongras, George E. White, No. 3, p. 223

C

Caries progress of white spot lesions sealed with an unfilled resin
Franklin Garcia-Godoy, James B Summitt, Kevin J. Donly, No. 2, p. 141

Class II composite resin restorations using glass-ionomer liners: microleakage studies Ayman Aboushala, Gerard Kugel, Eileen Hurley, No. 1, p. 67

Clinical morphology of the mesial fossa of the maxillary first permanent molar in relation to operative dentistry
Fares Al-Sehaibany, George E. White, J. Tim Rainey, No. 2, p. 109

Clinical, radiographic and histological observations of the radicular pulp following "feracrylum" pulpotomy
Neeta T. Prabhu, A.K. Munshi, No. 2, p. 151

Complication from an extraction of a primary tooth Selda Erturk, Turgay Seckin, Gokhan Ermis, Ozlem Seckin, No. 4, p. 291

Confusion as a technique to induce hypnosis in a severely anxious pediatric dental patient Benjamin Peretz, No. 1, p. 27

Congenital hypodontia of maxillary lateral incisors in association with coloboma of the iris and hypomaturation type of amelogenesis imperfecta in a large kindred Metin Atasu, Atilla Eryilmaz, Ahmet Genc, Mutlu Ozcan, Semih Ozbayrak, No. 4, p. 341

Congenital labial fistulas: case report Carmen Cabrerizo Merino, Carlos Garcia Ballesta, Ricardo Elias Onate Sanchez, No. 4, p. 325

Craniofacial abnormalities associated with congenital fiber type disproportion myopathy Tizino Baccetti, Efisio Defraia, Maria Alice Donati, No. 2, p.167

D

Dental anomalies in the primary dentition: distribution and correlation with the permanent dentition Nik Noriah Nik-Hussein, Zubaidah Abdul Majid, No. 1, p. 15

Dental odontomas: a retrospective study of 104 cases Barry M. Owens, Norman J. Schuman, Harry H. Mincer, James E. Turner, Faith M. Oliver, No. 3, p. 261

Dental transplants: discussion and case report Norman J. Schuman, Barry M. Owens, Harry H. Mincer, No. 4, p. 281

E

Early root resorption of maxillary primary first molars in a child with severe congenital heart disease Benjamin Peretz, Hagit Gleicher, Dan Gazit, Eliezer Eidelman, No. 2, p. 163

Ectopically erupting mandibular first permanent molar: treatment of a case Yng-Tzer J. Lin, No. 1, p. 31

Ectopic eruption of a mandibular lateral incisor Omar Gabriel da Silva Filho, Sabrina dos Reis Zinsly, Celeste Okada, Flavio Mauro Ferrari Junior, No. 3, p. 177

Ethical decisions in dental treatment planning using the Ozar model: a descriptive study of fifty-two consecutive patients Norman J. Schuman, James E. Turner, No. 3, p. 193

Exposure to passive smoking and other predictors of reduced nasal volume in children 7 to 12 years old Athanasios I. Zavras, Thuraya Al-Bultan, Andrew Jackson, George White, No. 4, p. 295

F

Features of oligodontia in three generations Jean M. Stimson, Joan E. Sivers, Gwen L. Hlava, No. 3, p. 269

Follow up after root canal treatment of young permanent molars Benjamin Peretz, Olga Yakir, Anna B. Fuks, No. 3, p. 237

G

Genioglossis muscle electrical activity and associated arch dimensional changes in simple tongue thrust swallow pattern Sherene Alexander, P. Sudha, No. 3, p. 213

R

Regional odontodysplasia: a case report Ozant Oncag, Cemal Eronat, Bilge Hakan Sen, No. 1, p. 41

Regional odontodysplasia: review of the literature and report of a case Jay Vaikuntam, Nanni Behnke Tatum, H. Stan McGuff, No. 1, p. 35

Resin-modified glass ionomer restorations in primary molars: a comparison of three *in vitro* procedures Fauzia F. Al-Obaidi, Fouad S. Salama, No. 1, p. 73

Root canal treatment as a treatment modiality for temporary tooth retention in adolescent patients Michael Hulsmann, No. 2, p. 109

S

Salivary catecholamine assay for assessing anxiety in pediatric dental patients M. Mitome, T. Shirakawa, T. Kikuiri, H. Oguchi, No. 3, p. 255

Scanning electron microsopic study of hypoplastic type amelogenesis imperfecta in primary teeth Meryem Uzamis, Hamdi Celik, Nilgun Erkmen, Yildiz Batirbaygil, No. 3, p. 265

Shear bond strength of Dyract compomer material to dentin of primary molars Faika Y. Abdel Megid, Fouad S. Salama, No. 4, p. 305

Siblings versus maternal *S. mutans* levels as related to dental caries
Usha Antony, A.K. Munshi, No. 2, p.145

Space maintainer effects on intercanine arch width and length Mufide Dincer, Seda Haydar, Berna Unsal, Tamer Turk, No. 1, p. 47

Surface morphology of sound enamel after argon laser irradiation: an *in vitro* scanning electron microscopic study Gary H. Westerman, M. John Hicks, Catherine M. Flaitz, G. Lynn Powell, Richard J. Blankenau, No. 1, p. 55

Surface texture and enamel-restoration interface of glass ionomer restorations Elif Sepet, Zeynep Aytepe, Hakan Oray, No. 3, p. 231

Surgical management of a labially placed permanent maxillary central incisor after supernumerary tooth extraction: report of a case Neeta T. Prabhu, A.K. Munshi, No. 3, p. 205

T

The effect of sleep on conscious sedation: a follow-up study Brian J. Sanders, No. 2, p.131

Treatment of unilateral crossbite using modified palatal arch: case report Yng-Tzer J. Lin, No. 3, p. 187

Tunnel restorations using glass ionomer or glass cermet: *in vitro* marginal ridge fracture and microleakage Rajmohan Shetty Y., A.K. Munshi, No. 1, p. 79
